Code for Editing JaamSim Config File

Samuel Sim, Lee Min Shuen

November 2021

Note for some the following code the indexing or the text might differ from the final model cfg files, as they have been corrected at later stages.

```
for (i in 10:69) {
    # self remove 35
    x <- (pasteO(x, "EnterTrain_", i, " NextComponent { Station_BoardTrain",
        i, " }
